Objective

I thrive on challenge and constantly set goals for myself, So I have something to strive towards. I am looking for an opportunity wherein I can implement what I have learned theoretically and hone my technical skills with the aim of bringing my dedication and discipline to the organization that I work for.

Project

- Netflix Clone**
HTML & CSS
Made this project using HTML & CSS only. It was a Fully Responsive on Bootstrap Breakpoints using display flex.
- Amazon Clone**
HTML & CSS
Used frameworks such as HTML and CSS without Responsive Sight. This project showed Cart ,Language changing, location
- Restaurant**
HTML
This project helped me to boost my confidence as I was highly appreciated by people around me for making this project in a very creative manner.
